INTRODUCTION

We have been engaged in the supply to **Government, Semi-Government and Multinational Organizations** since the last **35+ years** of our establishment and possess **key knowledge, relations, expertise & experience** in the field.

Our Company is registered and in compliance with General Sales Tax, Income Tax Department, Provincial Tax Authorities, Karachi Chamber of Commerce & Industry (KCCI) as well as Pakistan Engineering Council (PEC).

Our company holds emphasis and a vast amount of **experience** in the following equipment and services ranging from: **Power Equipment & Solutions**, Industrial Diesel/Gas/Petrol/Marine Gen Sets (up to 3000 KVA), Generator Service & Overhauling, Power Plant Electrification and Distribution Solutions, Earth Moving Machineries, Material Handling Machinery, Industrial Cleaning Equipment, Electric/Diesel Fork Lifts, Electric Motors, Invertors, Traction Batteries and more

ABOUT US

JOURNEY 1990 TO 2021

Worldwide Equipment Services was founded in 1990 as a pioneer of Power Solutions in Pakistan with the aim of providing complete power backup alternatives for the country. Founded by our esteemed CEO Mr. Muhammad Arif Khan, who is a well renowned Textile Engineer & distinction holder from UET Lahore, our Motto & Mission Statement has always pertained to the meeting of our Customer's Requirements of High Quality paired with the Most Reasonable Prices.

With our 35+ years of experience in the field, our main line of business has revolved around the Supply, Installation & Commissioning of Generator Sets and Power Plants for our Industrial and Private Clients.

Worldwide Equipment Services symbolizes a company dedicated to the provision of innovative Engineering skills, each year witnessing further application of the latest technology to its product innovation, reliability and flexibility. With countless successful projects and installations for large and highly reputed companies to our name, we have set a standard that is second to none. Worldwide Equipment Services' business model and nature goes in line with full support to the customer as "3S" (Sales, Services and Spares Back-up) under one roof.

ALTERNATIVE ENERGY BUSINESS

Green Energy(Alternative Energy) Business:

Following 2009 onwards, we had observed how the conventional fossil fueled equipment required much higher running and maintenance costs compared to renewable energy while the world was slowly transitioning to Green Energy sources. As per our deep survey conducted in 2010, we observed how there was already a mass amount of successful international projects which were successfully generating clean electricity in MW's through Wind Mills, PV Solar Panels, Bio-Gas Generation, Micro Hydro Power Plants; and foresaw a large sustainable market in Pakistan.

Following the study and looking at the potential of such energy sources, the Government of Pakistan started multiple campaigns to increase information and business opportunities for alternative energy solutions in the Pakistan Market.

Companies and local investors started dealing in the import and installation of alternative energy supplies in Pakistan, out of which, World Wide Equipment Services became one of the pioneers. We are currently partnered with multiple foreign suppliers from PRC & Europe and work with high quality manufacturers of PV Solar Hybrid Systems offering services with complete certification and standards, in accordance with the Government of Pakistan, Local DISCO's (Distribution Companies), and the local commercial/domestic consumers in the country.

FURTHER EXPANSION & DIVERSIFICATION

The company has diversified onto many other technology and equipment solutions along the years in accordance with our deep market knowledge and industrial requirements. We have remained in the active tender business with government and private sectors for supply of Generation Systems, Traction Batteries, Fork Lifter, Diesel Engines, Water Pumps, Racking System and Material Handling Equipment.

We have remained in active business in the Oil & Gas sectors of Line Pipes and Seamless Tubes, Welding Fittings, Orifice Meters, Orifice Plates, etc. & allied equipment for such sectors. We have established sister concern companies dealing with different brands for above supplies namely K.K. Power International Pvt. Ltd. and QFS Indenters Pvt. Ltd.

Furthermore, we have also been involved in the Medical and Healthcare sectors, filling the market gaps for high quality medical equipment during the Covid Pandemic and delivering outstanding reliability. We have extensive experience in handling and transporting medical and healthcare equipment, both domestically and overseas, to hospitals, clinics and other medical related locations.

SOME OF OUR PRIMARY PRINCIPLES AND SUPPLIERS

FOR DIESEL, GAS, MARINE ENGINE DRIVE GEN SETS

CGM DIESEL ENGINEGENERATOR SETS: EUROPE-(ITALY)

In 2001 the company established its headquarters and started with a distribution limited to the surrounding areas of the province of Vicenza.

The quality of the Generating Sets (completely designed and produced in Italy) was rewarded with requests from other regions of the peninsula, leading to expansion to other countries around the world.

CGM has more than 50 certified distributors who operate in strategic points to ensure professionalism, timely deliveries and constant assistance.

POWERLINK GROUP: DIESEL / GAS ENGINE GENERATOR SETS: EUROPE (UK), CHINA, AMERICA, AUSTRALIA

Founded in 2001, Powerlink is committed to high quality design and production. Having 1 R&D center and 3 manufacturing plants in the world, Powerlink launches various high-quality diesel power generation products and gas cogeneration products with the exterior shape being containerized, muted, open and portable. Powerlink also provides engineering equipment with excellent performance, such as lighting cars, air compressors, etc. Powerlink Group has been recognized as a rapidly growing and continuously innovating power product manufacturer in the industry.

COELMO: DIESEL ENGINE GENERATOR SETS:EUROPE (ITALY)

COELMO has been involved in the design and manufacture of Industrial and Marine Generating Sets from 3 to 3000kVA since 1946.

Having three production plants, an integrated management system for engineering and production, a wide distribution network and international after sale service, COELMO is able to manufactures Generating Sets for all applications while supporting after sale services anywhere, anytime.

COELMO constantly invests in industrial and technological R&D to combine reliability of traditional energetic sources with innovative green technologies

OUR PRINCIPLES AND SUPPLIERS

RENEWABLE SOLAR ENERGY

Worldwide Equipment Services is a complete solution provider for Solar Hybrid Systems to domestic, commercial, and industrial consumers of Pakistan. We have foreign affiliations with manufacturers having 10+ years of experience in Solar Hybrid Equipment manufacturing and installation of Mega Watts projects internationally. We are partnered with Ningbo Green Light Energy Tech. Co., Ltd., which was founded in 2010, specializes in the production and sales of renewable energy equipment & products. We have undertaken several domestic and international large scale solar thermal and photovoltaic projects all over the world

The Solar Module is assembled in a plurality of polycrystalline & mono-crystalline solar cells in a certain alignment.

Quality and Safety

- = Rigorous quality control meeting the highest international standards
- = High transmissivity, low-iron tempered glass, strong aluminum frame, using UV-resistant silicon.
- = Safety Class II, conformity to CE.

Features

- = Aesthetic appearance with excellent efficiency based on innovative photovoltaic technologies.
- = High quality, strong aluminum frame, passing mechanical load testing 5400 Pa and wind pressure 2400Pa.

Warranties

- = 10 years limited product warranty
- = 15 years at 90% of the minimal rated power output
- = 25 years at 80% of the minimal rated power output

Poly-Crystalline Solar Module

Mono-Crystalline Solar Module

Headquarter: 11F, Building 7, Smart Park, No.98 Chuangyuan Rd, High-tech Zone, Ningbo, PRC
Factory: No.5, XingYe Middle Road, Ningbo Free Trade Zone, PRC
Tel: +86-0574-86812925 Email: info@glenergy.cn

Note: more brands and qualities available as per requirement of client /project.

OUR PRINCIPLES AND SUPPLIERS

SOLAR INVERTERS

INVEREX

Inverex is the leading brand in Pakistan for Solar Hybrid Inverter systems and Solar Technologies. We currently employ the following models of Inverex Inverters:

Aerox Series:
1.2 KW to 20 KW:

Fronius Series:
5.0 KW to 27 KW:

Axpert Series:
3.2 KW

Infini Series:
3 KW, 5 KW, 10 KW

CROWN MICRO

Crown Micro is a multinational and well reputed company operating since 1992 holding valuable experience in UPS and Inverter technologies. Crown is cost effective and a good choice for Solar System solutions in Pakistan:

Alego Series:
1.5 KW to 10 KW:

Stringer Series:
33 KW to 40 KW:

ORCEDO Series:
On-Grid upto 1000V

Ricardo Series:
3 KW to 5 KW:

Note: More Inverter brands and models are available as per demand. Due to up-gradation of design, technology, software and requirements, we may update all technical data and products without prior notice.
